**PONSACCO WAS ONCE  
A CASTLE...**

# **PONSACCO**

***Ponsacco's name stems from the fusion of the latin words "PONS SACCI", which translate as "Sacco's bridge".***

***Sacco was the name of the bridge guardian who collected the toll from those who wanted to cross the bridge.***

***Within a short time the village became a castle.***

***Of the ancient castle, today only the arch and the tower in the city centre near our school are visible***

***And now let us show them to you!***
