Man has always been fascinated by nature and has
tried to understand it. He feels Nature as a
mysterious power, full of wonders and mysteries, and
tries to make it understandable and less scary by
telling himself stories.
Since the beginning of his history, man in a world
he cannot control, he looks at the natural phenomena
and explains them through narration. So the myths
and legends exploring the unknown and
uncommon natural world.
The fantastic explanation
of the myths and legends
through some of the
western tradition, and
the Modern Science.
